**Special Interests or Qualifications that would help me be effective in serving on this committee are:**

I am an effective communicator, networker and life-long student. I am known for facing problems straightforwardly. I have learned first-hand something Thomas Jefferson said long ago, "If you don't keep people informed you get one of three things, rumor, apathy or revolution." The consequences of poor communication have, and will continue to damage countries, communities, businesses and families.

As a City of Loma Linda Planning Commissioner, I will further our efforts of partnering with city committees, residents and developers regarding the growth and improvement challenges and opportunities we face. We can learn from the past successes and failures of our community, as well as others, and continue Loma Linda's history as an enjoyable and healthy place to live and work.

Thank you for considering my application.
